Customer Activation Card

Welcome to Mopar Connect

To activate your Mopar Connect System follow these steps.

1. While the vehicle is in park, turn the ignition switch to the RUN position (do not start the vehicle) for 60 seconds then turn it to the off position. For a Keyless Go or push button start system, press the ignition button twice (without depressing the brake) until in the RUN position.

2. Using any web browser, go to http://activate.moparconnect.net . Enter in your email address and the 17 digit VIN number of your vehicle. The VIN can be found in the lower right corner of the windshield (looking at the vehicle from outside).

3. Within a short time, you will receive an email notification from alerts@moparconnect.net which will include a link to a web site where the registration process can be completed. Click on that link to complete the registration process within 72 hours of receiving the email notification.

If you have any questions please contact our customer service center at support@moparconnect.net or 1-855-756-6727.
